

## R&D Funding

The following plots display the budget for the different areas of research with the information of the financing source. The green bar indicates financing coming from projects approved by financing Agencies. The broken line shows the capital not used in 1999, which will be transferred to 2000. The red bar corresponds to ITN financing (OE). The blue bar shows the amount of services supplied to other entities.

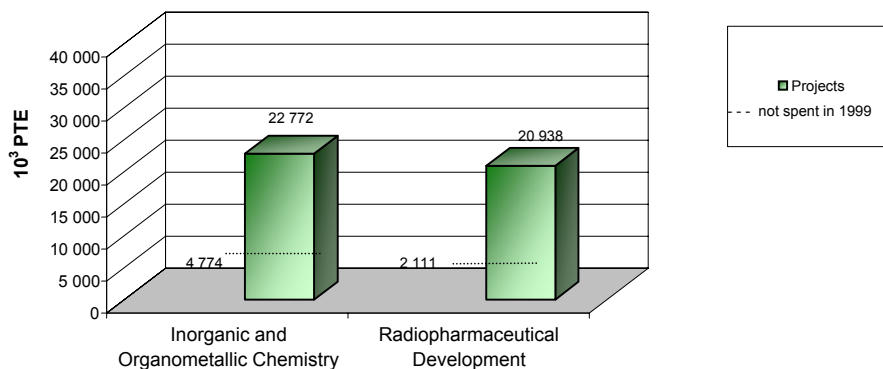

### New Materials and Compounds

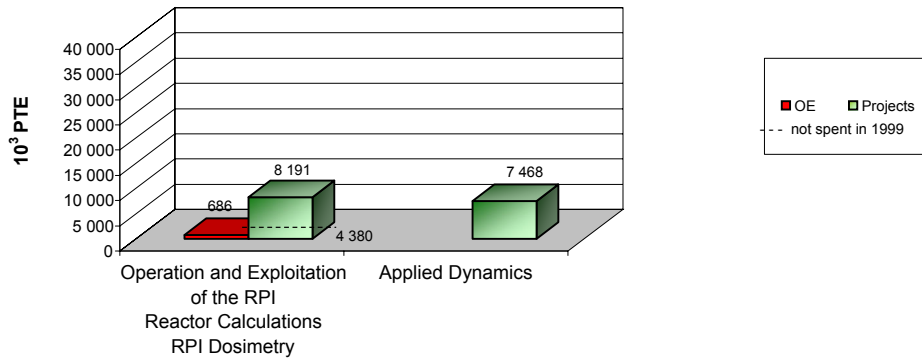

### Environmental Sciences

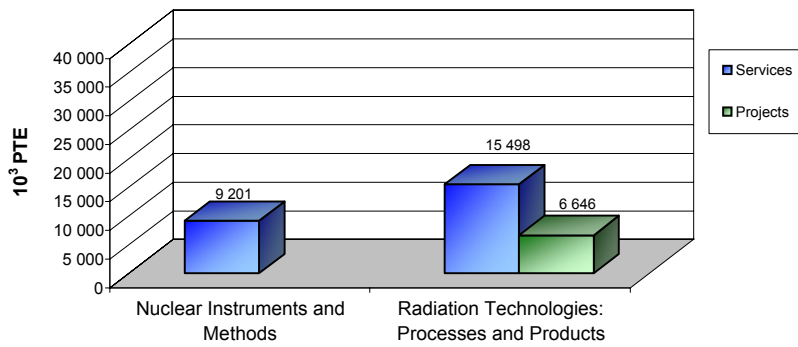

### Inorganic Chemistry, Radiochemistry and Radiopharmacy

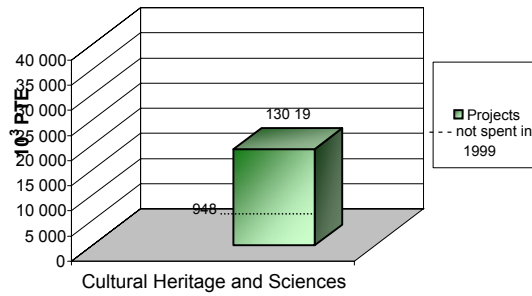

### Nuclear Engineering

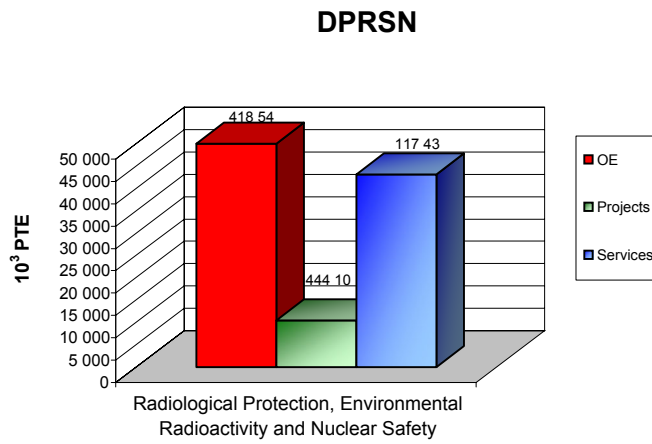

### Industrial Technologies

### Cultural Heritage and Sciences

For the DPRSN the available information allows the plot of the following global information:

The following graph indicates the ITN budget in "Common goods" for the various sectors.
